The Future of Aid Jonathan Glennie, 2020-11-29 International cooperation has never been more needed, but the current system of “aid” is outdated and ineffective. The Future of Aid calls for a wholesale restructuring of the aid project, a totally new approach fit for the challenges of the 21st century: Global Public Investment. Across the world, billions of people are struggling to get by in unequal and unsustainable societies, and international public finance, which should be part of the answer, is woefully deficient. Engagingly written by a well-known expert in the field, The Future of Aid calls for a series of paradigm shifts. From a narrow focus on poverty to a broader attack on inequality and sustainability. From seeing international public money as a temporary last resort, to valuing it as a permanent force for good. From North-South transfers to a collective effort, with all paying in and all benefitting. From outdated post-colonial institutions to representative decision-making. From the othering and patronising language of “foreign aid”, to the empowering concept of Global Public Investment. Ten years ago, in *The Trouble with Aid*, Jonathan Glennie highlighted the dangers of aid dependency and the importance of looking beyond aid. Now he calls for a revolution in the way that we think about the role of public money to back up our ambitious global objectives. In the wake of the COVID-19 crisis, it is time for a new era of internationalism.

HOW MALAYSIA NEVER REACHED THE WORLD CUP Lucius Maximus, 2014-04-15 The first World Cup that Malaysia tried to reach was the 1974 edition in Germany. The 11th and most recent try was for the 2014 edition in Brazil. HOW MALAYSIA NEVER REACHED THE WORLD CUP: Harimau Malaya's 40-Year Chronicle of Failure takes us through the matches, the personalities, the hopes and (all too often) the disappointments along the way. Popular writer Lucius Maximus of the Sokernet blog is chatty and opinionated in this updated translation of his 2012 bestseller *Cerita Malaysia Tidak ke*

Making Democracy Work Robert D. Putnam, Robert Leonardi, Raffaella Y. Nanetti, 1994-05-27 Why do some democratic governments succeed and others fail? In a book that has received attention from policymakers and civic activists in America and around the world, Robert Putnam and his collaborators offer empirical evidence for the importance of civic community in developing successful institutions. Their focus is on a unique experiment begun in 1970 when Italy created new governments for each of its regions. After spending two decades analyzing the efficacy of these governments in such fields as agriculture, housing, and health services, they reveal patterns of associationism, trust, and cooperation that facilitate good governance and economic prosperity.

The Art of Miss Peregrine's Home for Peculiar Children Leah Gallo, 2016-08-30 A stunning visual tour of Miss Peregrine's Home for Peculiar Children, filled with exclusive interviews, on-set photography, and special introductions by director Tim Burton and Peculiar Children series author Ransom Riggs. Tim Burton's adaptation of the Ransom Riggs novel Miss Peregrine's Home for Peculiar Children is one of the most anticipated films of the year—and this lavishly illustrated companion offers a thrilling behind-the-scenes look. Written and designed by two of Burton's longtime collaborators, this book chronicles every step in the making of the film—from script development and casting to concept art, set design, costumes, visual effects, and much more. Filled with exclusive interviews, on-set photography, and special introductions by Tim Burton and Ransom Riggs, this deluxe hardcover volume is a terrific gift for peculiars of all ages!

From MTV to Mecca Kristiane Backer, 2012 In the early 1990s Kristiane Backer was one of the very first presenters on MTV (Europe). For some years she lived and breathed the international music scene quickly gaining a cult following amongst viewers and becoming a darling of the European press. As she reached the pinnacle of her success she realised that, despite having all she could have wished for, she was never truly satisfied. Something very important was missing. A fateful meeting with Pakistani cricket hero Imran Khan changed her life. He invited her to his country where she encountered a completely different world to the one she knew, the religion and culture of Islam. A few years later (in 1995), after travelling more widely in the Islamic world and knowing that she had discovered her spiritual path, she embraced Islam in a London mosque. In this private memoir Kristiane Backer tells the story of her conversion and explains how faith, despite the many challenges she faced as she turned her life upside down, at last gave her inner peace and the meaning she had sought.

Bali Coffee Ronald Glick, Michelle Anindya, 2022-05-16 Coffee is the most popular drink worldwide. Around two billion cups are consumed per day - 400 million cup in the U.S. alone. Bali's soil is rich with nutrients from its volcanic mountains,

and many coffee farmers in Bali grow their coffee beans alongside citrus fruits which give the coffee its unique fruity flavor. Discover Bali's vibrant coffee scene by delving into its agricultural richness. Explore local artisanal farming and experimental processing methods. Investigate the background behind Indonesia's first coffee flavor wheel. Learn practical home brewing and roasting techniques, intertwined with the intergenerational journey of a Balinese coffee family. *Bali Coffee: Origin's First Wave* is a story about Bali, a story about coffee, and a story about the spaces between.

The Treatment Trap Rosemary Gibson, Janardan Prasad Singh, 2010-03-16 With health reform enacted by the Congress and signed by the President, the subject matter of *The Treatment Trap* is a compelling component in the national debate. Taking advantage of Rosemary Gibson's knowledge gleaned from extended experience in the field of medical care and Janardan Singh's similar knowledge but from a financial perspective, the authors explore the most neglected issue in American medicine today: the overuse of medical care, including needless surgery and other invasive procedures, out-of-control x-ray imaging, profligate testing, and other wasteful practices that have become routine among too many American doctors. Their combined reporting and analysis concentrates on the human aspects of this disturbing trend in health care, with personal experiences that reflect poorly on hospitals as well as physicians. They show how money spent for questionable and even useless care is diverting major funds that could be better used to treat patients who are genuinely sick and sometimes cannot afford the extravagant charges of the American health-care system. Their suggestions for reforming the delivery of health care, and their cautions to individual consumers about how to deal with situations they may encounter, make *The Treatment Trap* essential reading for medical care consumers, health-care professionals, and policymakers alike.

The Trouble with Aid Jonathan Glennie, 2010-01-01 Africa is poor. If we send it money it will be less poor. It seems perfectly logical, doesn't it? Millions of people in the rich world, moved by images on television and appalled by the miserable conditions endured by so many in other countries, have joined campaigns to persuade their governments to double aid to Africa and help put an end to such shameful inequality. It seems simple. But it isn't. In this book, Jonathan Glennie argues that, along with its many benefits, government aid to Africa has often meant more poverty, more hungry people, worse basic services and damage to already precarious democratic institutions. Moreover, calls for more aid are drowning out pressure for action that would really make a difference for Africa's poor. Rather than doubling aid to Africa, it is time to reduce aid dependency. Through an honest assessment of both the positive and negative consequences of aid, this book will show you why.

Indonesia-Malaysia Relations Marshall Clark, Juliet Pietsch, 2014-03-26 Drawing on social media, cinema, cultural heritage and public opinion polls, this book examines Indonesia and Malaysia from a comparative postcolonial perspective. The Indonesia-Malaysia relationship is one of the most important bilateral relationships in Southeast Asia, especially because

Indonesia, the world's fourth most populous country and third largest democracy, is the most populous and powerful nation in the region. Both states are committed to the relationship, especially at the highest levels of government, and much has been made of their 'sibling' identity. The relationship is built on years of interaction at all levels of state and society, and both countries draw on their common culture, religion and language in managing political tensions. In recent years, however, several issues have seriously strained the once cordial bilateral relationship. Among these are a strong public reaction to maritime boundary disputes, claims over each country's cultural forms, the treatment of Indonesian workers in Malaysia, and trans-border issues such as Indonesian forest fire haze. Comparing the two nations' engagement with cultural heritage, religion, gender, ethnicity, citizenship, democracy and regionalism, this book highlights the social and historical roots of the tensions between Indonesia and Malaysia, as well as the enduring sense of kinship.

Plant Comparative Genomics Alejandro Pereira-Santana, Samuel David Gamboa-Tuz, Luis Carlos Rodríguez-Zapata, 2022-07-11 This detailed book presents recent methodologies for the task of inspecting the genomic world of plants, extracting valuable information, and presenting it in a readable way. With a focus on bioinformatics tools, the volume explores phylogenetics and evolution, Omics analysis, as well as experimental procedures for trait characterization. Written for the highly successful Methods in Molecular Biology series, chapters include the kind of vital expert implementation advice that will lead to successful results. Authoritative and practical, Plant Comparative Genomics serves as an ideal resource for researchers looking to implement comparative tools in order to explore their genomic data for their daily scientific work.

Betrayal Harold Pinter, 2014-01-07 "One of the most essential artists produced by the twentieth century. Pinter's work gets under our skin more than that of any living playwright." —New York Times Upon its premiere at the National Theatre, Betrayal was immediately recognized as a masterpiece. It won the Olivier Award for best new play, and has since been performed all around the world and made into an Academy Award-nominated film starring Jeremy Irons, Ben Kingsley, and Patricia Hodge. Betrayal begins with a meeting between adulterous lovers, Emma and Jerry, two years after their affair has ended. During the nine scenes of the play, we move back in time through the stages of their affair, ending in the house of Emma and her husband Robert, Jerry's best friend. "[Betrayal] deals with the shifting balance of power in triangular relationships, and with the pain of loss. . . . Pinter probes the corrosive nature of betrayal . . . a world where pain and loss are explored with poetic precision." —Guardian "Betrayal is an exquisite play, brilliantly simple in form and courageous in its search for a poetry that turns banality into a melancholy beauty." —Newsweek "There is hardly a line into which desire, pain, alarm, sorrow, rage or some kind of blend of feelings has not been compressed, like volatile gas in a cylinder less stable than it looks . . . The play's subject is not sex, not even adultery, but the politics of betrayal and the damage it inflicts on all involved." —Times (UK)

The House of the Infinite, 2017 Spanish architect Alberto Campo Baeza has constructed a radical residential property positioned at the edge of the Atlantic Ocean. referencing the endless sea that stretches out in front of the dwelling, the project is called?house of the infinite?? a design comprised of a podium crowned with an upper horizontal plane. oriented to face the horizon, the home is envisioned as a jetty built from roman Travertine stone that elegantly complements the sandy beach. VT House, also known as house of the infinite, was conceived by Campo Baeza first and foremost as a piece of landscape architecture, with its architectural elements sunken underneath.00We have erected a house as if it were a jetty facing out to sea, said the architect. On this resoundingly horizontal plane, bare and denuded, we face out to the distant horizon.
